EDUCATION

University of Central Florida
Bachelor of Science in Computer Science

Orlando, FL
Aug. 2026 - Jul. 2029

EXPERIENCE

Software Engineer Intern

Feb. 2026 - Aug. 2026

MascotGO

Remote

- Developed backend applications and workflows using Python and related development tools.
- Built AI-assisted automation workflows to improve and streamline data processing tasks.
- Analyzed datasets containing over 1,000 records to support data-driven application development.

Mentor

Feb. 2026 – Mar. 2026

ReDesignHer

Remote

- Mentored students in a 4-week virtual program focused on design thinking, creative problem-solving, and innovation.
- Provided weekly guidance and feedback as students developed solutions to real-world challenges.

PROJECTS

Debate Arena | *Python, Flask, Backboard AI, HTML/CSS*

- Architected a multi-agent AI web app where three autonomous agents (PRO, CON, JUDGE) debate and evaluate topics in real time using the Backboard AI API.
- Built a responsive single-page interface with Flask backend integration and light/dark mode theming.

School Planner | *Python, Tkinter, SQLite*

- Developed a desktop application in Python/Tkinter for tracking assignments and class schedules, replacing manual planning methods.
- Implemented persistent data storage using SQLite for assignments and scheduling information.
- Designed and implemented a multi-page GUI from custom Figma mockups, translating design specs into functional Tkinter views.

Text-Based Adventure Game | *Python*

- Devised an interactive command-line adventure game using branching decisions and game-state logic.
- Implemented user input handling and multiple paths based on player choices.

CERTIFICATIONS

AI Fundamentals: Foundations for Understanding AI from IBM

TECHNICAL SKILLS

Languages: Python, Java, SQL, HTML, CSS, C

Frameworks + Libraries: Flask, Tkinter

Developer Tools: Git, GitHub, Docker, Linux, VS Code

Databases: SQLite, PostgreSQL

Design: Figma

AI: Backboard AI
